EnergIIZE and EV Fast Track

EnergIIZE Commercial Vehicles (Energy Infrastructure Incentives for Zero-Emission Commercial Vehicles) is the nation’s first commercial vehicle fleet infrastructure incentive project. Funded by the California Energy Commission’s Clean Transportation Program and implemented by CALSTART, EnergIIZE provides incentives for zero-emission vehicle (ZEV) infrastructure equipment for medium- and heavy-duty (MD/HD) battery electric and hydrogen fuel cell vehicles operated and domiciled in California.

EV Fast Track is one of four funding lanes under EnergIIZE. The application process is first come, first serve. Commercial fleet users interested in deploying electric charging infrastructure for MD/HD electric vehicles may be eligible for up to $500k of funding per project.

Increased Incentives for Eligible Applicants

Commercial fleet users that meet one or more of the eligibility criteria listed under EV Jump Start may apply under EnergIIZE’s other three funding lanes and may be eligible for a unique incentive structure (up to $750k per project) defined under EV Jump Start.

For more information, please review the Implementation Manual on EnergIIZE.org.

What is Covered

50% of Eligible Equipment and Software Costs
- Level 2 Electric Vehicle Supply Equipment (EVSE)
- DC Fast-Charge EVSE
- Charge Management Software
- Switchgears
- Electrical Panel Upgrades
- Wiring and Conduit
- Meters

$500,000 Project Cap

How to Apply

Submit your application during the EV Fast Track application window.

Visit the EnergIIZE website at EnergIIZE.org for a list of upcoming workshops, videos, and resources to help with the application process.

Navigate to the Infrastructure Readiness Center through EnergIIZE.org to view the Implementation Manual, and other documents required to submit an application.

Check the EnergIIZE website to see when the application window opens and begin uploading required documents with your application.

Submit your application through the EnergIIZE website during the EV Fast Track application window.
